Maintenance Pro™

Kennedy MP Series

Designed from the wheels up specifically for the maintenance professional

- Full-width, full-depth chests hold more tools
- Roller cabinets roll smoothly on 6 x 2" ball-bearing casters
- Maintenance carts include non-slip, open weave drawer liners to keep tools in place
- Maintenance carts also come with durable, coated MDF work surface
- All Maintenance Pro™ products come with tubular high-security locks with two keys
- Available in two new colors—gloss blue finish and gloss yellow finish

Pro-Line™ Kennedy

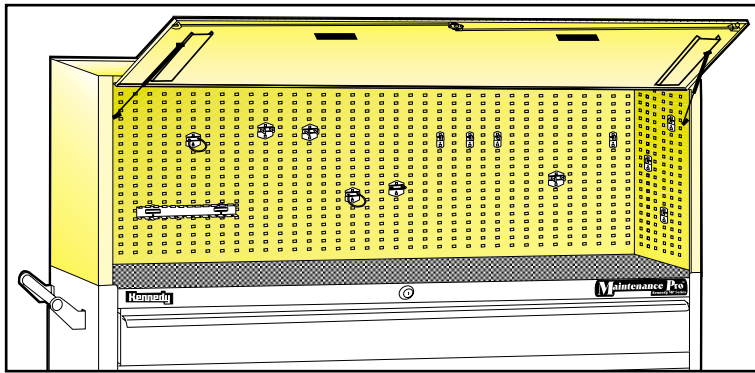

*Maintenance Carts
Built to Work—Built to Last*

- High-gloss Black Powder Finish
- Heavy-welded Steel Construction
- High-security Tubular Key Locks
- Ball-bearing Drawer Slides
- Heavy-Duty Tubular Side Handles
- Full-width Aluminum Drawer Pulls
- Heavy-duty Roller-bearing Casters
- MDF Work Surface

New! Canopy for 53" MP Maintenance Cart

Canopy is designed to add storage space to 5300MP / 5301MP maintenance carts. All steel construction with secure locking system. Twin gas struts keep door open for full access to interior. Inner wall (back and sides) has square hole perforations for versatile hanging storage. 30-piece toolholder set is included (see page 30 for description of set no. 99852). Canopy size is 53"W x 18" D and 20"H. See page 11 for more information.

Benchmark Series®

New! 60" Benchmark® Series Canopy:

- Full-access open storage, ideal for storing parts and tools
- Secure double point locking system
- Twin gas struts open door
- Bolts to cabinet for security
- Includes 30-piece assorted hook set

New! 60" Benchmark® Series Cabinet:

- Ball-bearing drawer slides on all drawers
- Full-width drawer pulls
- Heavy-duty non-slip drawer liner in every drawer plus top mat to protect work surface
- 6 x 2" roller bearing casters

See page 8 for more details!

NEW! KENNEDY HMS™ SERIES "HYBRID MODULAR STORAGE"

Combines the economy of roller cabinet construction with modular cabinet features!

- Kennedy Quality
- Flexible Drawer Divider System
- Stationary & Mobile Models
- Drawer Safety Interlock
- 130-220 lbs. Drawer Weight Capacity

Compact, high-density storage that saves space while it organizes parts, tools and supplies in the best traditions of "Lean Manufacturing" and 5S Programs. Cabinets are stackable, can be fork-lifted and used as work stations. See page 45.

Lean Manufacturing . . . 5S . . . Tool Control

Lean Manufacturing is the process of reducing all activities on the shop floor that do not add value!

5S is the process of creating a clutter-free workplace with visual controls through 5 steps—the 5 steps in English are:

Housekeeping—Workplace Organization—Clean Up—Standardized Procedures—Sustained Improvements

How can Kennedy help?

Kennedy has unique products and systems to visually store and control parts, bins and tools in both stationary and mobile applications.

Tool Control promotes the logical organization and easy access of NECESSARY Tools.

Tool Control means:

- *Fewer Tools to Purchase*
- *Easier Maintenance of Tools*
- *Higher Productivity*
- *Better Oversight of Tools—
fewer tools disappear or are misplaced*

Lean Mfg. & Tool Control

Machinists' Chests Facts and Features

Drop-front panels are double-wall construction for added rigidity and tool security. Your valuable tools can't walk away with the drop-front panel in place and the chest locked. Front panel conceals and secures drawers. Stores in base when not in use.

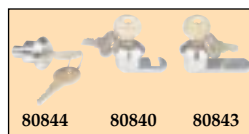

Thick, wool felt drawer liners help keep precision tools clean and protect against corrosion.

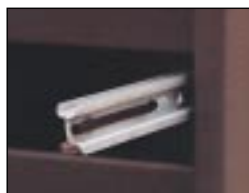

Chest lid hinges are equipped with rust-resistant, stainless-steel pins which are staked to prevent punch-out and lid removal.

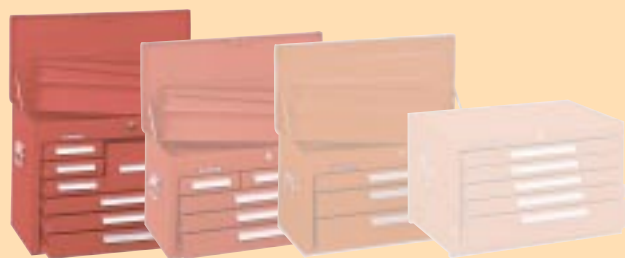

Take a look at the double-wall side panel. Both an inner and outer steel wall in a critical chest area. Look at the full-depth slides and slide carrier channels too. This integral, side panel/slide construction evenly distributes and transfers drawer loads to the chest bottom panel. An important aid in eliminating stress on the chest spot welds.

Kennedy uses 350 cylinder lock and key changes to help protect your chest's contents. All Kennedy chests and cabinets come with two keys.

Take the two-piece drawer slides on Kennedy machinists' chests. They are stronger than one-piece slides which have weak shoulder areas and may split under heavy drawer loads. Slide limit stops keep the drawers from extending beyond the chest frame. Spring clips on the slides allow drawer removal for cleaning.

Mechanics' Chests Facts & Features

The tamper-proof, internal drawer locking system cannot be reached by bolt cutters or hacksaw, or damaged when one drawer is closed with the chest locked.

Smooth operating, full-length chest hinges are staked and securely welded to prevent lid removal.

Rugged, cap-end construction on chest lids uses one of the strongest, self-reinforcing structural designs known to keep lids square and weathertight.

Two-piece, I-beam drawer slides permit smooth, easy full drawer extension. And, they're stronger than one-piece slides which have weak shoulder areas and may split under heavy drawer loads.

Slide limit stops keep drawers from extending beyond the chest frame. Spring clips on the slides allow drawer removal for cleaning.

All chest exposed edges are rolled and flattened for added strength and safety.

One-piece, heavy-gauge steel back, bottom and top till panels are securely welded to the double-wall side panels, giving the chests a tight, solid fit. This integral, chest construction evenly distributes and transfers drawer loads to the chest bottom panel. An important aid in eliminating stress on the chest spot welds.

New, full-depth chests with full-width drawers offer ball bearing slides.

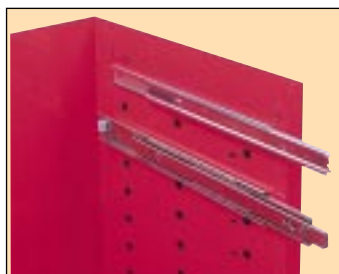

Roller Cabinets Facts and Features

Universal Drawer Slide System offers unlimited flexibility of drawer configuration and drawer slide selection. Slide carrier channels are slotted at 2" increments to allow the maximum drawer configuration. **Full-depth slide carrier channels provide support for the snap-in friction and ball bearing drawer slides. Both types are interchangeable for maximum storage capabilities.**

Ongoing vibration, load impact and other destructive testing in engineering facilities makes sure the products are built right. Every unit is inspected after final assembly to further improve quality control and protect your investment.

Heavy-gauge steel top, bottom and back panels are securely welded to the double-wall side panels; giving the cabinet a tight, solid, fit. This integral cabinet construction evenly distributes and transfers all drawer loads to the cabinet bottom panel and casters.

Now all Kennedy roller cabinets are available with ball-bearing drawer slides (except model 2005). Three member, full ball-bearing slides with four levels of ball bearings permit effortless, feather-light movement even though drawers are fully loaded. Self-cleaning bridged retainers prevent dirt from building up and keep drawers operating smoothly for years under the heaviest loads.

Cabinet top panels are reinforced for added strength and rigidity.

Solid aluminum and plated steel hardware set off the durable powder finish that is resistant to corrosion, abrasions and chipping.

The heavy-gauge steel, one-piece cabinet bottom panels are reinforced to provide added strength and greater load capacity without sagging.

The tamper-proof, internal drawer locking system on Kennedy cabinets cannot be reached by bolt cutters or hacksaw. Or damaged when one drawer is closed with the cabinet locked.

Easy-roll, low-drag five-inch soft rubber casters can be used in most wet or corrosive environments. Two rigid and two swivel casters with toe locks are standard on all cabinets. Models 273, 273X, 275, 275X, 277, and 277X come with standard 5 x 1 1/4" casters. Models 295, 295X, 297, 297X, 376X, 378X, and 348X come with 5 x 2 inch riveted sintered bearing casters. Models 2907X, 3407X, 310X and 315X come with 5 x 2" roller bearing casters with grease fittings bolted to full length heavy gauge, formed bottom reinforcements. Four 3-inch swivel casters are standard on 2005.

Rugged, 6 x 2" roller bearing casters made of black polypropylene tread molded to a polypropylene core provide smooth mobility under the heaviest loads. Swivel casters have lock brake that locks both wheel and swivel for added safety. Four 6 x 2" casters, two rigid, two swivel, come standard on all Benchmark®, Maintenance Pro™ and larger Pro-Line™ maintenance cart models.

The one-piece bottom panels are welded outside the cabinet body for a hand-in-glove fit. Gives the cabinets a solid foundation to help absorb bumps and eliminate stress on the cabinet spot welds.

Important: A word about this catalog. We have tried to make this catalog as comprehensive and factual as possible. However, since the time of printing, some of the information may have been updated. Check with your Kennedy supplier for complete information. The right is reserved to make changes at any time, without notice, in prices, materials, specifications and models.

Chest and cabinet dimensions are given without hardware. Cabinet dimensions with casters. Width is left to right; depth is front to back; height is top to bottom.

BALL-BEARING SLIDES

310X

315X

Maintenance carts move more tools to the job than ever before!

Both models have huge 39" x 18" work surface, full-width drawer pulls and tubular side handle for ease of handling. Two keyed-alike, high security tubular locks keep tools safe. Four 5 x 2" roller bearing casters move tools smoothly. Body made of 18 gauge steel, drawers of 20 gauge steel.

Ball-bearing drawer slides on all drawers permit smooth drawer operation under heavy loads.

Choice of brown wrinkle or smooth red powder finish.

Economy Square Hole Toolholder System

Convenient—Toolholder system allows hundreds of items to be organized, stored and displayed where they are easy to find—not hidden away in a crowded drawer or cabinet. The melamine finish white hardboard panels are easily cleaned with a wipe of a cloth.

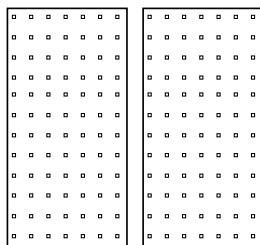

Space-saving—Eliminate clutter by turning unused walls into useful storage space.

Versatile—Modular system lets you design to fit your needs and easily make changes. Panels can be securely fixed to any wall surface and can be cut to fit small or irregular wall spaces.

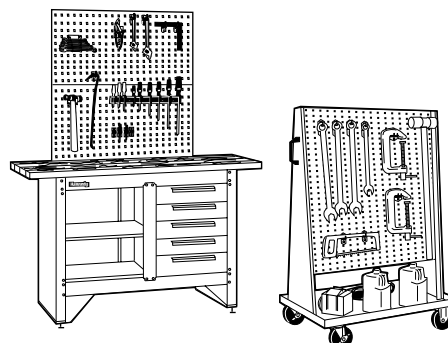

Set No. 85532 Contents:

- (4) ea. 24" x 24" Square-hole panels
- Anchor Set—(16) anchors, (16) spacers
- (30) Universal Brackets
- (44) Assorted Hooks, Clips, Fasteners
- (1) Cord Holder
- (2) ea. Wrench Rack
- (2) ea. Screwdriver Rack
- (2) ea. Ring Hook

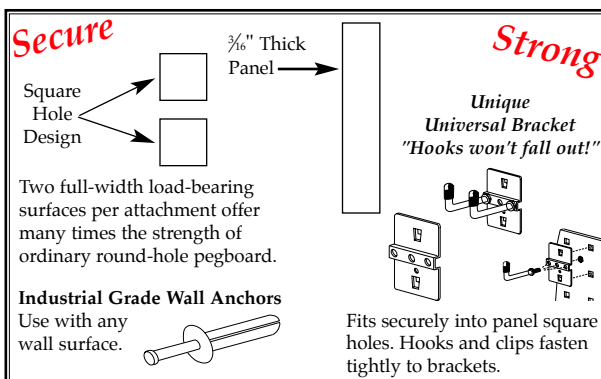

Set No. 85570 Contents:

- (2) ea. 18" x 36" panels
- Fasteners
- (15) Universal Brackets
- (20) Assorted Hooks and Clips
- (1) Cord Holder
- (1) Wrench Rack
- (1) Screwdriver Rack
- (1) Ring Hook

Set No. 85570—designed to attach to Kennedy workstations on page 28 (using two No. 50050 panel brace supports shown on page 30) and toolboard trolley base No. 50100 shown on page 32. Trolley base will accommodate (2) 85570 sets.

Tool Storage Accessories

Replacement and add-on items for your Kennedy tool boxes, chests, roller cabinets and work stations. Some of our most popular tool storage accessories are shown below. For your free copy of our Tool Storage Accessory Catalog, call us today at 1-800-413-8665 or e-mail us at kmcinfo@kennedymfg.com. Visit our website at www.kennedymfg.com.

Standard Cylinder Lock/Key Sets

- Key your chest and cabinet alike. Kennedy uses 350 lock and milled key changes for added tool protection.
- All locks can be keyed alike.

Tubular Key High Security Lock Sets

- The type of lock found in many coin boxes, vending machines, pay phones, etc.
- Seven pin tumbler cylinder construction.
- All locks can be keyed alike.

(Padlock not included)

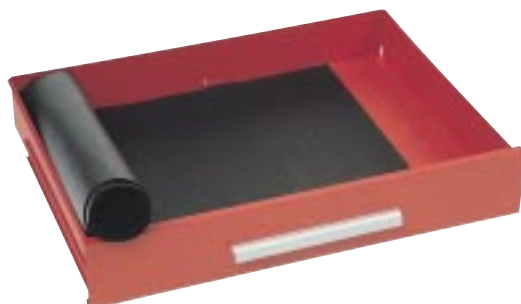

Multi-Lock Security Lock Bar

- Folds over cabinet drawers and locks with padlock.
- Easily attaches to tool boxes.
- Comes with sheet metal screws and instructions.

Chest/Cabinet Non-Slip Drawer Liner

- Non-slip, open weave drawer liner keeps tools in place.
- Polyester fabric coated with PVC.
- Washable, anti-fungus and mildew-proof.

Chest/Cabinet Foam Drawer Liner

- Helps protect tools from moisture and keeps them in place.
- Polyethylene foam $\frac{1}{8}$ inches thick.

Chest/Cabinet Foam Tool Organizer

- Notice missing tools at a glance.
- $\frac{3}{8}$ " thick foam can be cut with a hot pencil-tip soldering iron.

Ball-bearing Drawer Slides

- Three-member, full extension ball-bearing slides permit effortless, feather-light movement.
- Package includes one left and one right hand slide.

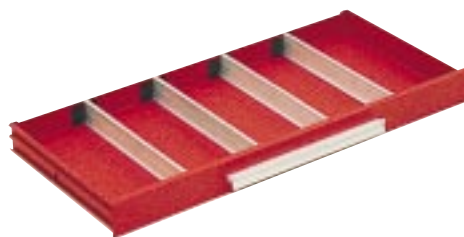

Cabinet Top Mat

- Protects against scuffs and abrasions.
- Reduces chest movement.
- Black vinyl pre-cut mat .075 in. thick.

Maple Work Surface

- 1½" thick butcher block maple top.
- Full-length laminations specially selected for grain and color match.
- Kitchen counter quality for years of fine use.
- Comes with care instructions.

Drawer Dividers

- Keeps tools separated and organized.
- Fully adjustable. Spring clips hold in place. Made of zinc coated steel.

ABS Drawer Divider Inserts for 27", 29" and 34" Roller Cabinets

Organize, separate and arrange tools and small parts. Maximizes the use of drawer space, giving you quick access to contents. No more cluttered, messy drawers.

- Tough ABS Black Plastic.
- All compartments have rounded corners for quick, easy retrieval of small parts and easy cleaning.
- One-piece design for 27" and 29" cabinets—easy to use, drop-in, lift-out!

Sized to fit Kennedy 2" and 4" high drawers in both 27" and 29" wide roller cabinets, maintenance cart models 310X and 315X and chest models 2705X and 2905X.

Roller Cabinet Caster Sets

- Soft rubber tread, hard rubber core bonded to metal center.
- For cabinets 20, 27, 29 or 34 in. wide.

6 x 2" Roller Cabinet Caster Set

- 6 x 2" roller bearing casters made of black polypropylene tread molded to polypropylene core.
- Swivel casters have lock brake that locks both wheel and swivel.

Touch-up Paint

- For touching up nicks and scratches.
- Durable textured wrinkle or smooth finish.
- Twelve ounce aerosol can or 0.6 ounce liquid bottle.

48" Industrial Mobile Versa-Bench® with Ball-Bearing Drawer Slides

4804

4804, 4806
Back View

4806

4810

Tow your Versa-Bench to the job. Power towing casters and bottom pan reinforcements bolt easily to base of bench. Steel wheels have molded-on soft rubber, shock absorbent tread; tapered roller bearings. Comes with two rigid, two swivel casters with poly cam brakes and a 27" towing tongue. Inside diameter of the towing ring is 2 1/2 inches; outside diameter is 4 1/2 inches.

Your Quality, Cost-Efficient Alternative in Modular Storage Compare the bott/Kennedy Features & Benefits—

Volume Capacity

bott/Kennedy modular cabinets offer more volume capacity than our competition. For example, our 30" x 30" x 39.5" cabinet with 18 each 2" drawers gives you 84.5 sq.ft. of drawer space in only 6.25 sq.ft. of floor space. The side-mounted rails increase the storage volume by providing up to 15% more usable drawer height than conventional carriage type slide systems. Plus, the larger size, 26" x 26", of our most popular drawers gives up to 17% more storage area than comparable drawers of the competition. The combination of rail design and drawer size can give over 30% more total storage volume than competing brands, depending on the drawer arrangement used.

Weight Capacity

bott/Kennedy offers weight capacity of up to 550 lbs. per drawer, highest in the industry. A 220 lbs. per drawer system is also available. These systems, (FX) and (NX), are interchangeable, offering economy and the ability to mix and match different systems within the same cabinet depending on your needs. Ball bearing rail construction ensures smooth, effortless operation, even when a drawer is fully loaded.

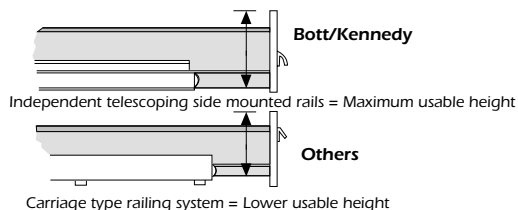

Drawer Construction

The drawer pans of all cabinets are formed from heavy gauge steel and have reinforced edges for strength, rigidity and safety. The bottom of the pan has perforations for partitioning flexibility. Divider slots on all four side walls are .79" (20mm) apart.

FX—Full Extension Drawers

bott/Kennedy FX drawers have a load capacity of 550 lbs. (250 kgs.) with 100% extension capability. Telescopic, side-mounted rails have a total of eight precision ball bearings per drawer (4 each side) to handle this enormous load capacity.

NX—Normal Extension Drawers

bott/Kennedy NX drawers have a load capacity of 220 lbs. (100 kgs.) with 87% extension capability. Side-mounted rails have four precision ball bearings per drawer (2 each side). NX drawers can be replaced with FX drawers whenever load capacity requirements change.

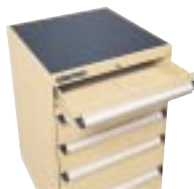

Changeable Drawer Fronts

The bott/Kennedy drawer front bolts solidly to the drawer pan. This permits the simple and inexpensive changing of drawer sizes at a later date if your needs change. For example, two 4" drawers can become a single 8" drawer by just purchasing an 8" drawer front and bolting it on. FLEXIBILITY is the key word with the bott/Kennedy system.

Drawer Interlock Safety System

Most bott/Kennedy cabinets have an "only one-drawer-open-at-a-time" safety system that prevents tipping of the cabinet. There are also four bottom corner holes for anchoring the cabinet to the floor. **Bolting cabinets to the floor is highly recommended to prevent personal injury.**

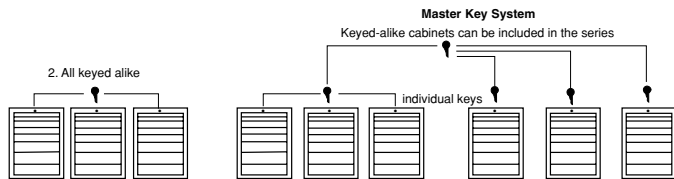

Corner Strengthening Bracket

All of our cabinets have a super-tough corner strengthening bracket solidly welded into place to ensure the maximum rigidity and strength that you would expect from a bott/Kennedy cabinet.

Security Locking System

All bott/Kennedy cabinets have a high security locking system. Keyed alike and master key combinations are available upon request.

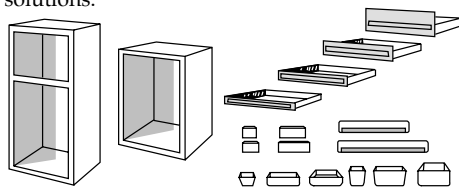

Drawer Dividers and Accessories

Choose from a large selection of standard divider sets or custom design your drawer arrangement from components. A wide variety of boxes, trays and tool holders are available for most efficient storage of tools and parts.

Custom Designed Cabinets

Although we offer many standard pre-engineered drawer arrangements and drawer dividers sets, the bott/Kennedy system allows you the total flexibility to design units to your exact specifications. If you need assistance, just call your bott/Kennedy representative. He can help with a wide range of storage solutions.

Cabinet Top Mats

Every bott/Kennedy cabinet top is covered with a ribbed black vinyl mat that protects against scuffs and abrasions, and provides a durable work or storage surface.

Full-length Label Holders

Drawer handles come with paper and clear plastic label strips for fast, easy identification of drawer contents. This means faster retrieval and quick inventory control.

Color Selection

There are four standard colors—tan, green, gray and blue. Call bott/Kennedy or your distributor to see actual color chips. Drawer fronts and housings may be the same or different colors. Special colors are available upon request.

NC/CNC TOOL STORAGE SYSTEMS

Increase Spindle Time

Increase Productivity

Operators tell us they spend up to 25% of their day retrieving and assembling tooling.

Reduce tooling retrieval and assembly time. Losses of \$300 per hour or more are common. Reducing a shop's total down time by just one hour per day can result in an average \$75,000 per year in increased productivity.

Increase Tool Life

Susta/Kennedy components keep tooling and accessories secure and protected from damage and loss so often resulting from loose and random storage.

Control Inventory

Custom arrangement of trays, drawers and pull out frames allows logical, organized storage of compatible tooling and supplies.

Tooling and supply components are separated and visible. It is easy to quickly see what is in stock.

Eliminate unnecessary rush orders for tooling that actually is in house, somewhere, out of sight.

Save Floor Space

Increase the amount of expensive floor space available for production machinery by reducing storage space with high density Susta/Kennedy storage racks and work stations.

One Susta/Kennedy Ministore® saves space by combining high density storage and work station in as little as 17 square feet.

Susta/Kennedy products begin on page 50

The standard width cabinets on these pages are 30" wide x 30" deep and are our most popular size.

You may order cabinet housings filled with your own custom-designed drawer arrangements or choose from the pre-engineered combinations shown that have proven to be the most widely used over the years.

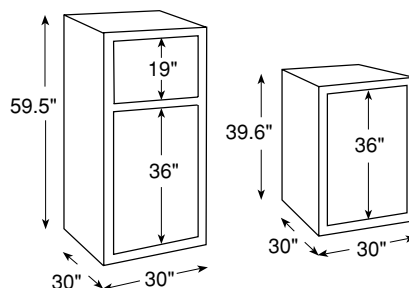

All models are shipped assembled and come with lock and two keys. Drawer divider sets are shown on page 37. Additional accessories are on pages 46, 47 and 48.

Standard Width Housings

Cabinet housings can be filled with full extension (FX), 550 lbs., or normal extension (NX), 220 lbs., drawers. They can be mixed within these cabinets for cost efficient combinations.

Select any combination of drawer front heights that equal the usable height of the cabinet. NX drawers can be converted to FX drawers at a later date if storage requirements change. All 2" drawers are NX type drawers.

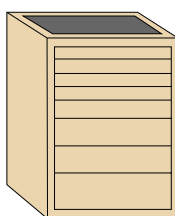

Drawers for all 30" x 30" cabinets are listed on page 37. Fork lift bases and pallet truck bases are available. See page 48 for information.

Custom Designed Cabinets

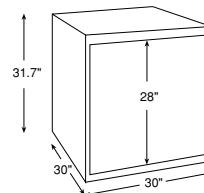

To order custom designed 30" x 30" cabinets, use the housings shown above (#63400, 39.6"H; #63600, 59.5"H) and combine with the drawers for 30" x 30" cabinets listed on page 37. Remember, the combination of drawer front heights must add up to the usable height of the housing.

30" x 30" Machine Cabinet

This bott/Kennedy storage cabinet holds normal extension (NX) or full extension (FX) drawers and can be used right at the machine site or as a base cabinet for work stations.

Model 63303 overall dimensions are 30" x 30" x 31.7"H. Usable height is 28". For other drawer arrangements, order housing no. 63300 and select from drawers listed below. Inside drawer dimensions are 26" x 26". Standard drawer arrangement is (1) 4" FX drawer, (2) 6" FX drawers and (1) 12" FX drawer.

Housing No. 63300
Usable Height 28"

76209 Socket Partition

Each drawer in housing no. 62000 holds three partitions; 63000 holds four partitions; 64000 holds six partitions.

Each partition will hold:

- (6) Susta 70053 50 Taper Sockets;
- (8) Susta 70051 40 Taper Sockets;
- (8) Susta 70059 30 Taper Sockets.

NC/CNC
Work Station

Standard Width Drawers for all 30" x 30" Cabinets

Drawer pans have perforations for easy installation of dividers and accessories. Drawer fronts bolt on to allow changing drawer heights easily as storage needs change. Inside dimensions of drawers are 26" x 26" giving 4.69 sq. ft. of storage area.

NX drawers have 87% rail extension; 220 lbs. capacity.

FX drawers have 100% rail extension; 550 lbs. capacity.

Mobile modular cabinets make taking your tools to the job site easy and convenient. And, you get high density storage, too. Cabinets include black vinyl top mat, two black vinyl handles and two fixed, two swivel 5 x 1½" casters. Load capacity of each caster is 440 lbs. Individual drawer latches prevent drawers from opening when cabinet is being moved. Order our pre-engineered models or custom design your own from the housings and drawers listed below. All models are shipped assembled and come with lock and two keys. Drawer divider sets and accessories are available.

30" x 30" Pre-Engineered Mobile Modular Cabinet

63350
Cabinet Size: 30" x 30" x 31"H.
Inside Drawer Dim.: 26" x 26"
Overall Dim.: 30" x 30" x 38.5"H
Standard Drs.: 2-3", 2-4", 1-6", 1-8"
Ship Weight: 296 lbs.

**Mobile Housing
No. 63359
Usable Height 28"**

30" x 30" Housing
Cabinet housing can be filled only with normal extension (NX) drawers. Select any combination of drawer front heights that equal the usable height of the cabinet.

NX latching drawers are listed below.

24" x 24" Pre-engineered Mobile Modular Cabinets

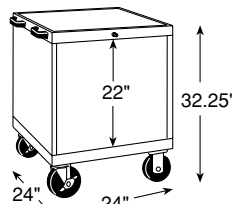

61203
Cabinet Size: 24" x 24" x 25.6"H.
Inside Drawer Dimensions:
20.5" x 20.5"
Overall Dim.: 24" x 24" x 25.6"H.
Standard Drawers:
2-2", 1-4", 1-6", 1-8"
Ship Weight: 157 lbs.

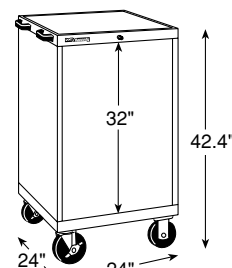

61750
Cabinet Size: 24" x 24" x 35"H.
Inside Drawer Dimensions:
20.5" x 20.5"
Overall Dim.: 24" x 24" x 42.4"H.
Standard Drawers:
2-3", 4-4", 2-5"
Ship Weight: 236 lbs.

24" x 24" Housings

Cabinet housings can be filled only with normal suspension (NS) drawers. NS drawers have a load capacity of 220 lbs. (100 kgs.) with 90% extension capability. Side-mounted rails have a total of four precision ball bearings per drawer (2 each side). Select any combination of drawer front heights that equal the usable height of the cabinet. Latching drawers are listed below.

**Mobile Housing
No. 61209
Usable Height 22"**

**Mobile Housing
No. 61759
Usable Height 32"**

Standard Width Drawers

Drawer pans have perforations for easy installation of dividers and accessories. Drawer fronts bolt on to allow changing drawer heights easily as storage needs change.

NX drawers have 87% rail extension; 220 lbs. capacity.

NS drawers have 90% rail extension; 220 lbs. capacity.

The bott/Kennedy line of work stations includes stationary and mobile work stations, components and work surfaces. Whether you need an individual bench or a complete work station complex, bott/Kennedy offers an extensive selection. Order our standard combinations or custom design the units you need from individual components. See page 40 for cabinet housing and drawer information. Drawer dividers and accessories are on pages 46, 47 and 48. All components, except work tops are available in the four standard colors: tan (stocking color), gray, green, blue. Special colors are available upon request.

Stationary Work Station Combinations

Featured are eight of our most popular work station combinations. To order, choose the work station that suits your needs and a 60" or 72" top shown below. You may, of course, order custom-designed units, including special work top sizes, from the components shown below and on page 43.

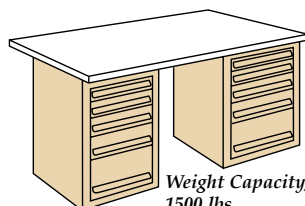

Work Surface Height 33½/33¾"

Weight Capacity,
900 lbs.

Model 69140

Above model includes:
One standard leg;
one 61303 24" x 24" cabinet.
Order 60" or 72" top separately. See below.

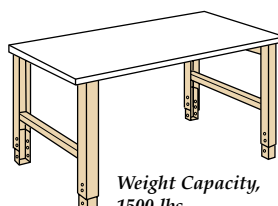

Weight Capacity,
1500 lbs.

Model 69148

Above model includes:
Two 61303 24" x 24" cabinets.
Order 72" top separately.
See below.

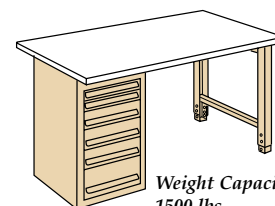

Work Surface Height 37⅞/37⅞"

Weight Capacity,
1500 lbs.

Model 69104

Above model includes:
Two adjustable legs.
Order top separately.
See below.

Weight Capacity,
1500 lbs.

Model 69146

Above model includes:
One adjustable leg;
one 61703 24" x 24" cabinet.
Order 60" or 72" top separately. See below.

WORK STATION COMPONENTS

Standard Leg
Strong, welded construction. Overall height is 31.7". For use with 31.7" high base cabinets.
Model 56100

Adjustable Leg
Adjusts in 1" increments from 27.5" to 40.125". Use where other than 31.7" fixed height is needed.
Model 66200

WORK STATION TOPS

Laminated Maple Top

This traditional hardwood work surface is suitable for most any application. Each top is welded butcher block construction with a smooth, maintenance free acrylic finish.
WT6030 60"W x 30"D x 1¼"H
WT7230 72"W x 30"D x 1¼"H

Special Order Work Tops

Maple work tops are available in other sizes than standard...both in length and width. Delivery times on special sizes are longer than on standard. Tops are available in single pieces up to 120", but should be supported at intervals not exceeding 72" by a bench leg or base cabinet.

WORK STATION BASE CABINETS

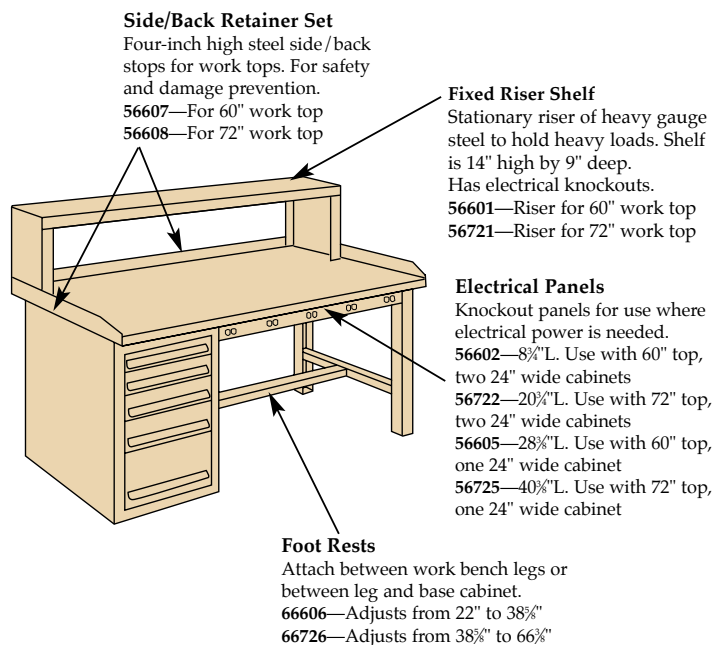

Model 61303 work station base cabinet. Overall dimensions are 24"W x 24"D x 31.7"H. Usable height is 28".

Standard drawer arrangement:
(2) 4" NS drawers
(2) 6" NS drawers
(1) 8" NS drawers

Model 61703 work station base cabinet. Overall dimensions are 24"W x 24"D x 35.6"H. Usable height is 32".

Standard drawer arrangement:
(1) 2" NS drawers
(1) 4" NS drawers
(3) 6" NS drawers
(1) 8" NS drawers

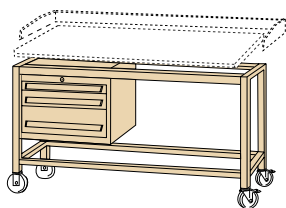

MOBILE WORK STATION COMBINATIONS

Mobile Work Station Combinations

You may order the work stations shown below or custom-designed units, including special work top sizes, from the components shown below. Drawer dividers and accessories are on pages 46, 47, and 48. All components, except work tops, are available in the four standard colors: tan, gray, green, blue. Special colors are available upon request.

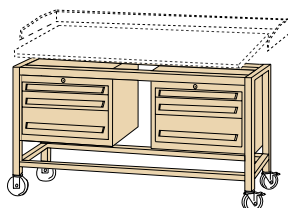

Work Surface Height 36"—Weight Capacity, 1000 lbs.

All models include standard mobile base unit no. 68910, consisting of two legs, two top stringers, two bottom stringers, one rear stringer, one caster set (two fixed, two swivel) and four caster brackets. Order tops separately. See page 42.

Model 68911

Above model includes:
Standard mobile base unit,
one 61104 cabinet.
Order top separately.
See page 42.

Model 68913

Above model includes:
Standard mobile base unit,
two 61104 cabinets.
Order top separately.
See page 42.

UNDERCOUNTER STORAGE— FOR STATIONARY & MOBILE WORK STATIONS

Model 61294 stationary work station cabinet.

Overall dimensions: 24"W x 24"D x 25.6"H.

NEW! KENNEDY HMS™ SERIES “HYBRID MODULAR STORAGE”

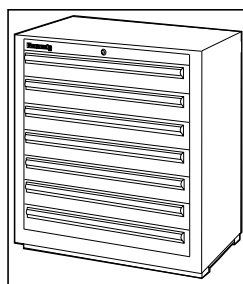

Combines the economy of roller cabinet construction with modular cabinet features!

- **Kennedy Quality**
- **Flexible Drawer Divider System**
- **Stationary & Mobile Models**
- **Drawer Safety Interlock**
- **130-220 lbs. Drawer Weight Capacity**

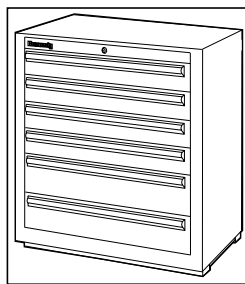

Compact, high-density storage that saves space while it organizes parts, tools and supplies in the best traditions of “Lean Manufacturing” and 5S Programs. Cabinets are stackable, can be fork-lifted and used as work stations. Housings are 29” wide x 20” deep with usable drawer height of 28”. Four-inch drawers have 130 lb. weight capacity; all larger drawers have double slides for 220 lb. weight capacity. Only one drawer open-at-a-time safety system. Ball-bearing slides are standard. MDF work surface. Cabinets can also be used as work station base cabinets, using two cabinets to support work surface or one cabinet with adjustable work station leg, 66200 on page 42. Full-width drawer pulls with label strips. Lock, two keys.

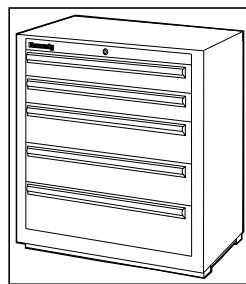

Pre-Configured Combinations

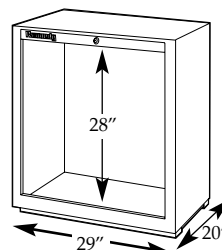

Standard drawers: 7-4”
40097—Tan finish
40197—Blue finish

Standard drawers: 4-4”, 2-6”
40096—Tan finish

40101—Blue finish
Usable Height, 28”

Cabinet Plastic Work Surface

Seamless, ABS black plastic cover fits over cabinet top.
Model 82171

See your Kennedy Tool Storage Accessories Brochure for more information.

Drawers

Drawers are welded heavy gauge steel that have bottom perforations and side wall divider slots for easy installation of divider sets. (2” drawer is a standard roller cabinet drawer and cannot be divided). When ordering custom-designed cabinets, the drawer front heights must add up to the usable height of the housing (28”).

Drawers

All drawers are 25” x 18½”

No.	Color	Front Height
40002	Tan	2”
40004	Tan	4”

Felt Drawer Liner

Helps protect tools from scratches and abrasions. Easily installed into drawer with household glue.

80991—20½" x 82" roll

80992—26" x 82" roll

Griptex Liner

Non-slip, open weave drawer liner keeps tools in place. Polyester fabric coated with PVC.

Washable, anti-fungus and mildew-proof.

80813—20½" x 82" roll

80815—26" x 82" roll

MODULAR STORAGE DRAWER AND CABINET ACCESSORIES

Adjustable Shelf

Adjustable support brackets allow shelf location to be easily changed.

Pull Out Shelf with Drawer Handle

Safety feature, lock-out pin prevents shelf from moving back inside the cabinet until the pin is released.

Bottom Shelf

Turns cavity in bottom of cabinet into easy access storage area.

Pull Out Shelf with Gussets

For use in cabinets with doors. Features safety lock-out pin mechanism.

Pull Out Shelves and Shelves with Gussets have 550 lbs. weight capacity; except, shelves for 24" x 24" cabinets, 220 lbs. weight capacity.

Model No.	Description

How to order bott/Kennedy custom built cabinets, drawers and accessories

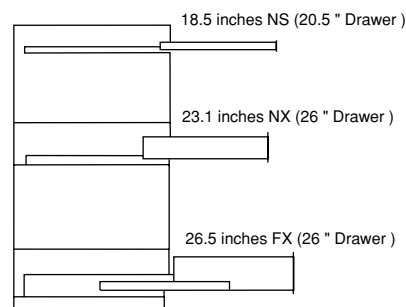

1. Separate, by height, items to be stored and calculate the required square area of all items in each height group, taking into consideration the average inventory quantity.

2. Select any of the 12 standard height drawers. Drawers are available in 1" increments from 2" to 10", and 2" increments from 10" to 16". Use the Handy Guide Ruler at the top of this page. The lines indicated the usable height of the drawer and the numbers (2", 3", etc.) indicate the drawer front height to be calculated.

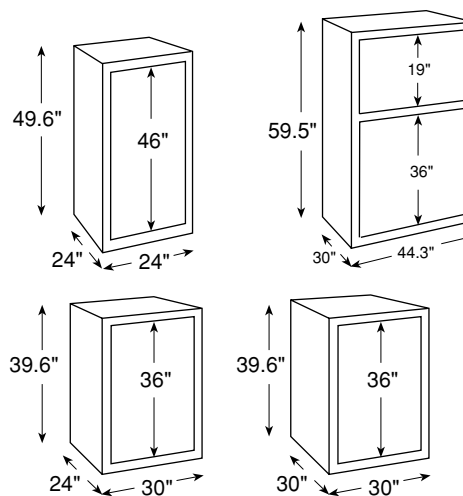

3. Choose the type of suspension needed. Normal Suspension (NS) drawers have 90% extension and 220 lbs. load capacity. **NOTE:** NS drawers available for 24" x 24" cabinets only.

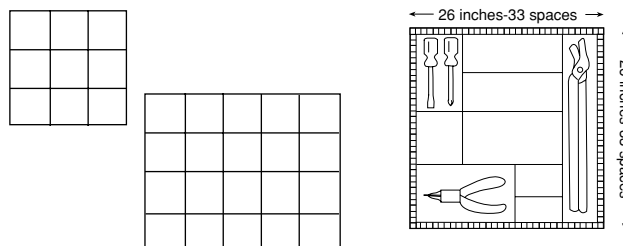

Normal Extension (NX) drawers have 87% extension and 200 lbs. load capacity.

Full Extension (FX) drawers have over 100% extension and 550 lbs. capacity. **NOTE:** The smallest drawer available with Full Extension telescoping rails is 3" front height.

4. Select the cabinet housing that best fits your needs. NS drawers fit only 24" x 24" cabinet housings. FX and NX drawers fit 30" x 24" and 30" x 30" cabinet housings and can be mixed within the same housing. XW (extra wide), 44" x 30" cabinet housings use only 550 lb. FX drawers. Add the drawer front heights together to fill the usable height of the selected cabinets.

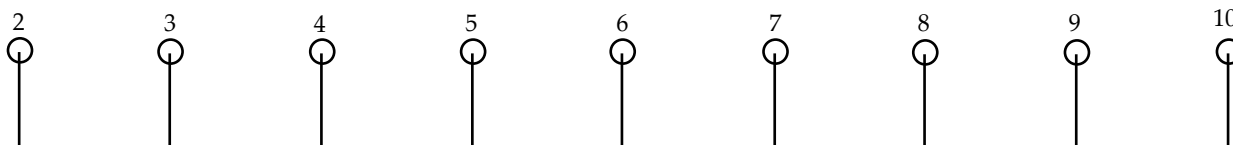

5. Select any of the dividers sets shown in the catalog to suit your requirements, or make up your own sets for the accessories listed on pages 46 through 48.

Drawers are divided into spaces. Each space is .79" (20 mm) wide. Use the scale on the bottom of this page to determine the length of the subdividers. Example: A ball bearing measuring 2" requires a 3-space subdivider.

NUMBER OF SPACES

PLASTIC SOCKETS & NC/CNC TOOL TRAYS

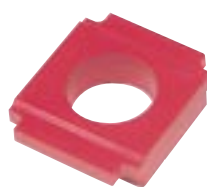

Susta/Kennedy plastic sockets are of high quality, break resistant plastic. Shockproof ABS plastic sockets firmly support and protect tool holder shanks. Sockets are available for standard tapers, Morse tapers and straight shank tool holders. All plastic sockets are available in red only.

70059 socket for #30 taper tool holders. Also Cat V#3, Morse 3. Up to seven sockets will fit 70060 tool tray.

70100 socket for straight shank tools up to 1.2" dia. (30 mm). Up to ten sockets will fit 70060 tool tray.

Kennametal KM® Plastic Sockets
70030 KM32
1.75" W x 4" D x 1"H
Up to 8 will fit a tray

Plastic sockets designed to secure and protect Modular Quick Change Units

Tool Trays for NC/CNC Tools

70060 metal tool tray holds plastic sockets for all types of tools. Two sturdy, collapsible handles and foot construction make it easy to take tools to work table. 23.3" W x 4.5" D x 5"H.

70070 metal tool tray holds sockets 70094, 70096, 70026 and 70027. 23.3"W x 5.9"D x 5"H.

Angle brackets hold plastic sockets firmly in place. Easily removed for changing inserts.

70005 universal brackets are required to place tool

trays in tool trolleys, toolkarts, storage racks or bench stands. Can be positioned three ways—horizontal, 15 degrees and 30 degrees. Packed in sets of one left and one right.

74021 three-tier stand supports three trays. 26.3" W x 12.6" D x 23.66"H. Weight Capacity, 300 lbs. Ship Wt. 13 lbs.

Trays and sockets not included.

74023 two-tier stand supports two trays. 26.3" W x 12.6" D x 16"H. Weight Capacity, 200 lbs. Ship Wt. 10 lbs.

Trays and sockets not included.

TOOL TROLLEYS AND ADD-ONS

Susta/Kennedy trolleys are an efficient means of transporting tools between machining centers and tool rooms. Tooling is contained within the side walls, protecting both the tooling and the operation. Basic trolley can be easily expanded as your needs grow.

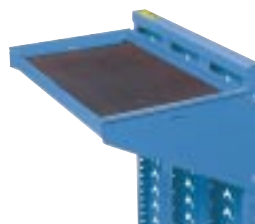

Basic NC/CNC Tool Trolley

72007—Smooth Blue Finish
Four-panel trolley holds up to 10 tool trays. Comes with four 6" casters and one end handle.
Maximum tool holder capacity:
(80) 30,35 taper
(70) 40 taper
(60) 45 taper
(50) 50 taper
31"L x 24" W x 38.75"H.
Weight Capacity, 2,200 lbs.

Shelves for trolleys have ribbed rubber mats. $\frac{3}{4}$ " high shelf edge. Brackets attach to inside trolley walls. Weight Capacity, 200 lbs.
Available in Dark Gray Finish Only
72008—23.75" W x 22.6" D x 1.75"H
72010—23.75" W x 10.25" D x 1.75"H

Steel Shelf provides additional work space. Comes with rubber mat.
18" W x 12" D x 1.5"H.
72006—Smooth Blue Finish
Shelf No. 72045 fits trolley 72007 and ToolKart™.
24" W x 12" D x 1.5"H.
72045—Smooth Blue Finish

Pre-Engineered NC/CNC Tool Trolley

Pre-configured trolleys come with eight tool trays, brackets and plastic sockets. Additional tool trays, plastic sockets and trolley accessories must be added separately.

Pre-configured trolley holds up to 40 #50 taper tools.
Weight Capacity, 2,200 lbs.
73154—Smooth Blue Finish

Tools not included

The CutterKart™

Pre-configured CutterKarts come with four metal and ABS plastic tool holder plates.

Pre-configured trolley holds up to 56 #40 taper tools.
Weight Capacity, 1,200 lbs.
73240—Smooth Blue Finish

Pre-configured trolley holds up to 40 #50 taper tools.
Weight Capacity, 1,200 lbs.
73250—Smooth Blue Finish

Extra #40 taper tool holder plate, holds 14 tool holders.
Model 70084

Extra #50 taper tool holder plate, holds 10 tool holders.
Model 70085

The TOOLKART™

Pre-configured ToolKarts come with six frames and plastic sockets. Additional tool frames, plastic sockets and trolley accessories must be added separately.

Pre-configured ToolKart holds up to 42 #30 taper tools.
Weight Capacity, 1,200 lbs.
73030—Smooth Blue Finish

ToolKart only.
28.25"W x 23.5"D x 38"H.
Weight Capacity, 1,200 lbs.
72001—Smooth Blue Finish

Pre-configured ToolKart holds up to 36 #50 taper tools.
Weight Capacity, 1,200 lbs.
73050—Smooth Blue Finish

Pre-configured ToolKart holds up to 42 #40 taper tools.
Weight Capacity, 1,200 lbs.
73040—Smooth Blue Finish

Sturdy socket frame bolts to end wall of ToolKart.
Holds up to 11 #30 taper tools.
70062—Smooth Blue Finish

- (5) Tool trays
 - (1) Pull-out shelf
 - (13) Drawers
 - (5) Pull-out frames
 - (1) Locking tall door
 - (1) Book shelf
 - (1) 53"L Maple work top
- Holds up to (150) #50 taper tools, or (210) #40 taper tools.
Overall dimensions: 105"W x 24"D x 77"H.
75601—Smooth Blue Finish
Bench stand and tools not included.

32"H four panel rack with back organizes supplies and tools under a work bench, or at machine side. 26" W x 24" D x 32"H.
Interior load capacity, 2,200 lbs.
75413—Smooth Blue Finish

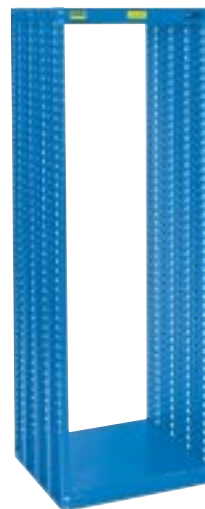

Five lift-out tool trays, five drawers and a pull-out shelf provide organized storage for up to (35) #40 taper or (25) #50 taper tools and NC/CNC machining supplies. Drawer and pull-out shelf weight capacity, 275 lbs. each. 26" W x 24" D x 77"H.
Interior load capacity, 2,200 lbs.
75112—Smooth Blue Finish

Five pull-out frames will store up to (125) #50 taper tools or (175) #40 taper tools. Pull-out frame weight capacity, 275 lbs. each. 26" W x 24" D x 77"H.
Interior load capacity, 2,200 lbs.
75122—Smooth Blue Finish

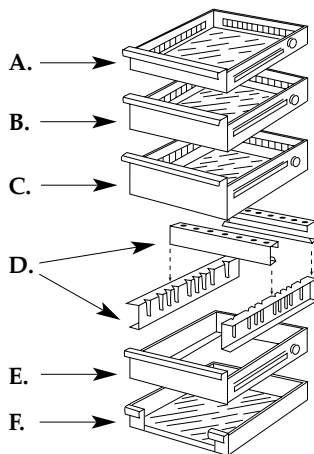

Three pull-out frames and five drawers provide organized storage for up to (105) #40 taper tools or (75) #50 taper tools and NC/CNC machining supplies. Pull-out frame and drawer weight capacity, 275 lbs. each. 26" W x 24" D x 77"H.
Interior load capacity, 2,200 lbs.
75117—Smooth Blue Finish

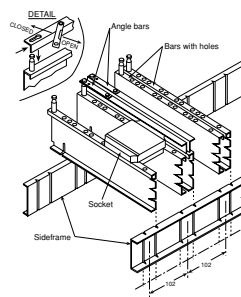

Four panel rack provides the most versatile and efficient storage available. Assembly required. 26" W x 24" D x 77"H.
Interior load capacity, 2,200 lbs.
74066—Smooth Blue Finish

Drawers and pull-out frames have full extension tracks mounted in the slotted rack walls. Tracks can easily be adjusted up or down. No bolts or tools needed. Weight capacity per drawer and frame is 275 lbs. (125 kgs.).

Drawers for Tool Storage Racks 75413, 75416, 74066 and 74067

- A. Model 76270—22"W x 22"D x 3"H. (75 mm)
- B. Model 76271—22"W x 22"D x 4 1/4"H. (112.5 mm)
- C. Model 76272—22"W x 22"D x 6"H. (150 mm)
- C. Model 76273—22"W x 22"D x 8 3/4"H. (225 mm)
- D. Model 76208—Adjustable tool holder kit.
Holds up to five rows of sockets.
- D. Model 76531—Adjustable tool holder kit.
Holds up to four rows of socket nos.
70094, 70096, 70026 and 70027.
- E. Model 76314—Pull-out Frame
D and E Combined = 4 1/4"H (112.5 mm)
- F. Model 76305—Pull-out Shelf
22"W x 22"D x 3"H. (75 mm)

Combine an Adjustable Tool Holder Kit (D) and Pull Out Frame (E) to achieve maximum tool storage and efficiency.

In the Pull-out Frame with a kit, it is possible to have up to four and five rows of sockets with up to eight sockets per row.

Socket Size	No. Sockets Per Row	No. Sockets Per Frame
30 Taper	8	40
40 Taper	7	35
50 Taper	5	25

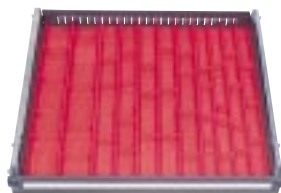

***Safety Note:** Drawers should never be used for storing tools in trolleys. Trolley could tip over causing personal injury.

To fill racks with a desired drawer combination, the combination of drawer front heights (mm) can not exceed the usable height of the rack (mm).

Rack Model	Overall Height	Usable Height
75413/75416	32" high	675 mm
74066/74067	77" high	1803 mm

Plastic Groove Kit

A simple way to store reamers, taps and drill bits. Trays clip together. Made of polystyrol in red. 5 7/8" W x 5 7/8" D x 1 1/4"H.

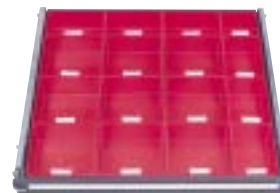

Plastic Groove Kit Model 76311

Includes:
4 rows, 1.4"W, 20 Dividers
5 rows, 1.9"W, 25 Dividers
2 rows, 3"W, 15 Dividers

Plastic Boxes

Hold small parts and electronic components. Made of polystyrol in red. Each kit fills one 22" W x 22" D drawer. Boxes are 2.4"H.
